

Astrology Ayurveda & Yoga Retreat

Thursday 9 March to Sunday 12 March 2023

Theme: Relationships

These are extraordinary times. Times that call for vibrant health and a keen awareness of our individual nature - mind, body and soul - in order to navigate the complexity of relationship. In this innovative and restorative retreat Anja and Graham will be combining their knowledge and expertise in Ayurveda and Astrology to help you meet these demands more awake, resourceful and resilient.

In this three-day retreat we will be inviting you to:

- explore your unique constitution from an Ayurvedic perspective, learn how your five elements contribute to your relationship with self and others, learn practical tips to transform your day-to-day relationship patterns and come home to yourself
- explore how your birth chart reveals your personal relationship gifts and challenges, starting from inside.

You will come away with:

- a renewed sense of how your own strengths/ capacities/ resources can be drawn on to thrive in relationship of all levels
- Through an understanding of the early laying down of relationship patterns an increased choice in how we navigate relationships
- an enhanced 'know thyself', particularly when met at the threshold of the 'other'
- an ability to implement self-care practices that will help you interact with others in the most health ways
