

Birth Time Rectification for Jeremy Corbyn

All orbs and placements are for 11:27pm chart (26/5/1949, Chippenham)

Attended a May Day rally in Chile, 1/5/1971, after Allende had been elected (finally approved Nov 1970). This time was said to be highly influential in his politics. This could be pAsc on the Yod point of his Saturn-Uranus sextile, around 29°32' Cap. Exact for 11:24pm. Or could involve pAsc on pJupiter, at the almost point of the pYod, pSat-sex-pUra-qqx-pJup. Exact for around 11:27. This Yod is significant for him and his politics.

Elected councillor of Harringay ward, 2/5/74: (tied up with his marriage - see below). pAsc trine Sun (0°08' A)

Marriage 4/5/1974: pSun on Ura ??? (Orb 0°01'). Doesn't seem very marriage-like. Yet the marriage was one that seemed very political - see above pIC onto Sun 0°15' A (partile for 11:28). SA Sat trine Moo (L7) 0°02' A. Could this be pMC/pAsc on natal Asc?

Wife Walks out, just before Christmas 1979. tUra 23°21 Sco opp Moon 23°Taurus46', L7, orb 0°25' A. Yet pMoon 5°35 Cancer, right on Desc (0°05')! More a signature of marriage than separation!. pNew Moon only one month earlier, on the Desc (1° into 6th).

Descendant progressed onto Pluto, 0°14' S for 20/12

MP for first time 9th June 1983: look at pJupiter onto Yod midpoint. PMercury return (0°36' A). tJupiter-Uranus in Sag (4°, 6°) opposite Sun. pAsc square Mars (L10) (1°13' S) - would suggest time **11:25pm**

Arrested: 7th June 1986: **SA Moon 29°09 Gem on Ura (0°02' A)**

Birth of Child: possibly around 15/5/1987: pMar on Mer L5 (0°07' S), pIC on Mercury L5 (0°50' S) - latter could suggest 3-4 min earlier birth

Separation from second wife over disagreement about schooling for child. 1997. SA Mars onto Desc in Cancer - (0°07' S orb for May 1997)

Move into house separated into two flats: April/May 1999. pIC 28°54' Gemini on Uranus 0°17' A.

Elected leader of the Labour Party 12/9/2015. pMar, L10, just risen above Desc (0°31'). tSat 0°Sag07' square natal Saturn L1 in Leo 29°Leo53' (orb 0°14'). With transiting Mars 26°Leo36' on Sat (3°17' A orb).

Birth Time Rectification for Jeremy Corbyn

2016 Vote of No Confidence in his leadership. 24th June 2016 (straight after EU referendum. Could suggest a slightly later birth time so pMar has moved onto Desc (would suggest birth around 11:31). But also could be pMC sqq. Sat, L1. (0°24'S) Would be partile for around 11:25

2017 Election, 8/6/17: tNN 27°51' Leo on Saturn (L1). tUra 27°19 Aries applies trine Saturn, L1 (2°34' A). tPlu 18°52 Cap trine Mars, L1, 0°58' A). Previous NM had been 4°Gem, on his Sun, within 1°

At this stage I'm pretty happy with 11:26 or 11:27pm for his birth. I like it much more than the 8pm chart on Astrodatbank. And I can see images of Corbyn in this:

- his socialism: Sun in Gemini trine Neptune in Libra in the 9th. Aquarius Jupiter.
- his privacy: Ruling planet Saturn in the 8th.
- his capacity to hold a path, unwavering: Fixed chart ruler Saturn in Leo, Moon - Mars in fixed.
- three marriages: Uranus on the 7th. (Despite Moon in Taurus, L7)

Still unsure about:

- 5th house Sun
